- **Change in Social Security benefits available for 2016:**
 - On November 2nd, 2015, President Obama signed a Bipartisan Budget Act that essentially eliminates the “File & Suspend”, and “Claim Now, Claim More Later” provisions for new Soc. Sec. claimants.
 - All prior claimants under this provision are grandfathered.
 - As of April 20th, 2016, new retirees will no longer be able to take advantage of the “File & Suspend” benefit strategy to increase their monthly benefits.
 - Small window remains should you become eligible to do so.
 - Under the “File & Suspend” strategy, a higher-earning spouse can file for Soc Sec. at full retirement age (FRA) and delay receipt of benefits until 70 to earn delayed retirement credits (DRCs). The lower earning spouse can then file for spousal benefits.
 - Under the “Claim Now, Claim More Later” strategy, at full retirement age the higher-earning spouse can file a restricted application for spousal benefits, allowing his or her own benefits to earn DRCs (assuming the lower earning spouse has already filed for benefits). Once the higher-earning spouse turns 70, they switch over to their benefit, which has grown with DRCs.
 - Retirees turning 62 before the end of 2015 are still eligible to file restricted applications.
 - Delaying taking your benefits can increase your future benefits by as much as 8% for each year you delay between the age of full retirement and age 70.

- **Child Credits for 2015:**
 - The child tax credit is **\$1,000** per child thru year **2015**.

 - Taxpayers are also responsible for making certain the charity they give to is an approved 501(c)(3) organization

- **Contributions (Non-Cash) for 2015:**
 - Clothing/other goods donated must be in a "**Good or better**" used condition.
 - IRS has the authority to deny deduction for items with minimal value.
 - Donor is required to maintain written records of the donation regardless of the value of the donated property.
 - Donations of \$250 or more must have a contemporaneous written acknowledgment by the donee.
 - IRS will continue high level of scrutiny regarding non-cash area due to abuse in the area over the recent past.

- **Vehicle Donation Rules:** (Same as prior year)
 - The amount of the deduction will depend on how the donee organization uses the vehicle.
 - If the charity sells the vehicle without using or improving the vehicle in any significant way, the amount of the charitable deduction is limited to the gross proceeds of the sale by the charity.
 - If the charity keeps the vehicle for its own use, the taxpayers must be provided with an acknowledgement from the organization as to the value of the vehicle
 - Stiff penalties will be imposed on charities that don't approach the valuation obligation honestly.
 - Acknowledgement rules begin on contributions made after Dec. 31, 2004.

 - Applies to all taxpayers whose total taxable income did not exceed the upper limit of the 15% ordinary income tax bracket for the applicable filing status.
 - Therefore, lower-income taxpayers can realize long-term capital gains (and qualified dividends) in 2015 and pay no income tax on the gains to the extent that their total taxable income does not exceed the upper limit of the applicable 15% bracket.

- **Medicare Surcharge Tax (3.8%) NIIT Tax:**
 - Beginning in **2013 and beyond**, unearned income (Interest, Dividends, Capital Gains, etc.) of individuals, trusts and estates is subject to a surtax of **3.8%** on “net investment income”.
 - The surtax, also called the “unearned income Medicare contribution tax”, is 3.8% of the lesser of (1) net investment income or (2) the excess of modified AGI over the threshold amount (\$250k for MFJ, \$200k for single, and \$125k for MFS) for individuals.
 - Example: Single individual with net investment income of \$100k and an MAGI of \$220k would pay 3.8% on \$20k or \$760 surtax.
 - For Estates and Trusts, the surtax is the lesser of (1) the undistributed net investment income or (2) the excess of adjusted gross income over highest tax brackets for estates and trusts.

- **New Estate Tax Law & Tax Rates:**

- Prior legislation gradually reduced the estate tax rates and increased the amount of non-taxable transfers (\$3.5 million in 2009), until 2010 when the Federal Estate tax was eliminated for all estates.
- New legislation revives the estate taxes for decedents dying after December 31, 2010.
- **The 2015 exclusion amount is increased to \$5.43 million**, with a maximum tax rate of forty (40%) percent.
- Anticipated that the exclusion will be **\$5.54m in 2016**, with a maximum tax rate will increase to forty (40%) percent.
- New law allows for “**portability**” between spouses of the maximum death exclusion (\$5mil.+). Surviving spouse may elect (on a timely basis) to take advantage of the unused portion of his/her spouses exclusion.
- **Observation:** With careful planning, a married couple can effectively shield up to \$11+ million in assets from estate tax.
- Generation Skipping Tax (GST Tax) has been increased to the \$5.4m+ exemption as well.

- **Owing \$ to the IRS:**

- **Partial Payment Agreements:** Taxpayer may request the IRS to enter into an installment agreement that result in full or partial payment of the tax liability. Maximum three (3) year payment agreement available. Subject to financial review every two (2) years.
- **Offer in Compromise:** Taxpayer may request the IRS to take a payment of less than the total tax liability for reason including doubt as to liability and doubt as to collectability of the tax. Many rules apply in order to qualify. New streamline process of taxpayers owing less than \$50k.

- **Installment Agreements**: File request for installment agreement (form 9465). Balance must be less than **\$50,000**. Must agree to pay within five (5) years. For amount over \$25K, form 433-A must be filed with the request. Must remain current on all future returns while under agreement. Request automatic if less than \$10K. IRS may issue a tax lien under certain circumstances.

- **Tax Scams and other related items:**
 - **Phone calls from the IRS**: I have received a lot of contact from clients over the past few months that have been receiving what they believe are phone calls from the IRS. The person on the call usually makes a statement that you have “**failed to file and/or pay all of your taxes**” and unless you are willing to make payment today (over the phone), they will bring a warrant for your arrest.

 - **The IRS NEVER calls**: Should you receive a call as described above, it is a **SCAM!** The IRS will only contact taxpayers by letter or direct contact (ie. showing up at your doorstep and presenting a badge). The only time you may get a call from the IRS is once you have established a line of communication with an IRS agent, you can give them permission to call you directly.

 - **Never give your Social Security Number to anyone you don’t know**: Especially over the phone!

 - **Tax Fraud**: It’s a BIG problem now. Many taxpayers are finding that someone has filed a tax return on their SS# before they can get their return into the system. Be aware that your information is vulnerable to ID thieves. Protect your personal info! Be aware of the warning signs, like mail coming to your address in some else’s name. Check your credit reports annually to make sure that there is no unrecognizable credit.

This review of the changes for 2015, 2016 and future years is simply a highlight of the changes made by Congress in the Tax Acts of 2014, 2015 and prior years. **It is not intended to be used as a source of tax information to rely upon when making decisions about your income taxes.** Rather, it has been prepared to offer an overview of the changes in question and to make you aware of those changes which may affect your taxes in the future.

There are other, numerous changes to the tax code that have not been listed herein. If you feel that your tax situation may be impacted by these or any other changes to the tax code, please contact your tax professional for further discussion and understanding of the changes, as you feel necessary.
